By TOM PATTERSON

"In a very real sense this is an historic occasion." Professor W. W. Watkins told the first students of the University of California's new college of letters and science at Riverside this morning.

He referred to the name of the university he said that, "teachers and taught will share creatively in an old heritage and help make a new one."

He told the first students, 128 in number, that, "you represent a select company of students. You probably represent the top 25 per cent of those who have finished high school.

He told them that the initial semester will, because of the high ratio of faculty to students will, "provide for you every teaching and opportunity of very personal instruction... probably never again will you or anybody else have such an exceptional opportunity."

He reminded the students that the state has invested six-and-a-half million dollars in the new campus, that its operation costs several hundred thousand dollars yearly.

"This extraordinary investment in youth," he said, "is one of the nobler evidences of our people's faith in free education."

Weather Forecast: Clear tonight; increasing high clouds tomorrow; rising temperatures.

RIVERSIDE DAILY PRESS

Butter Supports To Drop

WASHINGTON (U.P.)-Secretary of Agriculture Ezra T. Benson today announced a cut in dairy price supports, effective April 1, which he estimated will mean an eight cent a pound reduction in retail butter prices.

Benson told a news conference that government price supports on butter, cheese and cream milk will drop from 60 to 75 per cent of the parity level permitted by law.

In addition, and at no support levels for the three dairy products.

But he said he thinks "housewives can count on an eight cent a pound drop in butter.

Law Requires Action

Benson announced the new dairy price supports for the year starting April 1, increasing 15 million dollars worth of dairy products picked up in government warehouses. He noted that the

Green Buildings

• Buildings that are environmentally responsible and resource efficient

• LEED (Leadership in Energy & Environmental Design) Certification
  • Platinum, Gold, Silver, Certified

• UC Policy - LEED Silver

• School of Medicine Research – LEED Gold

• School of Medicine Education Building – LEED Silver

• Glen Mor 2 and Student Recreation Center Expansion will aim for LEED Gold
Clean Energy

- Increase renewable energy and efficiencies
- MREG (mobile renewable energy generator)
- Solar Benches
- A new 11 acre Solar Farm will:
  - produce 3 Megawatts of power
  - Save UCR $4.3 million over 20 years
- More solar installations possible near term
