I am pleased to confirm that UCR will implement a 3% merit based salary program for non-represented staff for FY2016-17. Increases will be effective July 1, 2016 for monthly paid staff and June 19, 2016 for biweekly paid staff. In her communication to UC Chancellors regarding this year’s salary program, President Napolitano emphasized that salary increases must be based on individual performance and contribution.

UCR has been working to create an environment that is supportive of merit based pay as a mechanism to recognize and incentivize excellent performance. Staff from across campus developed recommendations to inform our way forward in four key areas: (1) Last October the campus transitioned to Career Tracks, a market based pay structure as a framework for compensation decisions; (2) Enhancements to the effectiveness of our performance management process went into effect on April 1, 2016; (3) We are implementing strategies to reduce the campus reliance on individual reclassification and equity increases; and we are making refinements to the merit process to improve the consistency in distribution of available merit dollars; and (4) For 16/17, the merit program will continue to be administered at the organizational unit level, as it has been in the past.

In keeping with our campus commitment to improving our administrative processes, we changed the timing of our performance evaluations. As a result, this year for the first time we will be able to implement individual merits on the effective date rather than processing them retroactively. By doing so we will get money into the hands of staff sooner, as well as dramatically reducing the time spent processing retroactive increases.
Merit Program Instructions to Organizational Units*

- The merit increase shall be performance-based and should distinguish top performers.
- Organizations are required to incorporate an internal review process and a merit distribution methodology that will support the reward and recognition of top performers within the parameters of the system-wide budgeted control figure of 3.0 percent.
- Merit increases are reserved for performance that is satisfactory or better.
- Employees rated as “Unsatisfactory” or “Needs Improvement” shall not receive a merit increase.
- Performance appraisals, pursuant to Personnel Policies for Staff Members (PPSM) 23, shall pertain to performance during the July 1, 2015- March 31, 2016 review period for PSS and MSP employees.
- All recommended merit increases must be reviewed and approved at the organizational unit level before being communicated to employees.
- A merit increase in excess of six percent (6%) requires consultation with the Chancellor and approval by the dean, vice chancellor, or organizational unit head, as designated by the Chancellor.
- Merit increases for an individual’s direct reports must be approved by the next higher level of management, i.e., one-over-one approval for all merit increases is required.
- An across-the-board approach to awarding the merit increase is not acceptable.
- Communication to employees concerning the merit increase should emphasize a performance-based focus that allows for varying levels of a merit increase based on performance.

*Organizational Unit Average Merit Increases must balance to 3% control point.
