Keep in mind that training is not the only way learn, grow or develop. In fact, training should be a small component of your overall development plan. There are many other opportunities to develop professionally. These include mentoring, job rotations and shadowing, participation in professional associations, conferences, books, formal networking events, volunteer work and more.

*Make the most of every professional development opportunity!*

Identify areas of strength and continue to refine those areas that you are good at; identify areas where you would like to grow for better performance.

Consider [UCR's mission](#), values and strategic priorities when determining what competencies to focus on.
1. Assess
Reflect on your career goals. Where do you see yourself in a few years? What would you like to accomplish or develop? What knowledge, skills or abilities do you need to help you achieve your goals?

2. Create an IDP
Talk with others. Gain support and advice from your leader and/or mentor. Are there gaps in your development? What are your strengths? Development isn’t just a one-way street.

3. Obtain approval
Request your supervisor’s approval to participate in the specific learning activities identified through your IDP.

4. Time to Learn
Enroll in the appropriate courses via the LMS. You’ll receive a confirmation email once you have registered.

6. Give Us Feedback
We continuously improve our trainings based on the feedback we receive from you. Please submit post-training surveys or send an email.

This leadership development opportunity is targeted for senior members of our campus community who have shown themselves to have high potential for contributing to the objectives outlined in UCR-2020. This leadership program will focus on the benefits of inter-campus and cross-functional involvement. With the program being tailored at the director level and above, the participants will have field study opportunities to work on a specific campus or a medical center leadership initiative. The UC–CORO Systemwide Leadership Collaborative is being offered to 40-50 high-performing senior staff administrators from across the UC system to form a Northern California cohort and a Southern California cohort. The program will include campus explorations where participants will interview campus leaders and have the opportunity to visit and learn about the institution. This provides a direct opportunity to get a sense of the physical, intellectual, administrative and cultural nature of multiple University of California campuses.
Management Skills Assessment Program (MSAP)

The Management Skills Assessment Program (MSAP) is a highly successful program offered throughout the UC system for more than 20 years. UCR participates in the Southern Region of California with UC campuses in our area.

MSAP is designed to assess, on an individual basis, the management skills of UC supervisors and managers. The program enables participants to identify managerial strengths, gain information on skills they need to improve, learn about the range of skills necessary for effective management, practice these skills in a supportive environment, and work with a manager trained to identify professional development activities. Participants demonstrate management skills in role-playing exercises that simulate typical management activities. The participant works with their assessors to design an individualized development plan based on the assessment of strengths and improvement opportunities.

MSAP is based on an Assessment Center approach that integrates personnel from across UC departments, sites, and hierarchy to assess core competencies that have been identified as essential for UC managers. It contributes a unique value by using integrated assessment centers to change and foster organizational culture.

“This was a very high quality program. The presenters were excellent and engaging. I appreciate UCR bringing programs of this caliber to the campus.”
