Take three important steps today to make sure you have the financial security to enjoy all that retirement brings.

- 1. Check out your 2021 Retirement Review**—Find out the monthly retirement income you can expect (if you stay on track) from UC sources, including the UC Retirement Plan (pension) and UC Retirement Savings Program accounts (403(b), 457(b) and DC plans).
Your Readiness Score shows your expected retirement income as a percentage of your current pay.

- 2. Improve your readiness**—Use the modeler tool to see how additional savings could help you reach your retirement income goals. Small changes now can have big payoffs later.
Further personalize your score by updating your retirement age or factoring in additional sources of income such as Social Security, other savings or your spouse or partner's retirement assets.
- 3. Don't wait to make a change**—The sooner you boost your savings, the more likely you are to see results. Once you've identified opportunities to improve your readiness, click *Change Contributions* in the *Supplemental Retirement Benefits* tab.
